

Follow The Money 2.0 for ELECTION DENIERS

QUESTION:

How can The People combat Voter Fraud in certain states?

ANSWER:

Use similar tactics that America uses for “economic boycott” of foreign countries except modified for local level media and local advertisers.

STEP 1 - Follow the *Advertising* Money in Local Media of those places with Voter Fraud and figure out which businesses advertise on that LOCAL media that cover up or ignore voter fraud.

STEP 2 - Let those businesses know that The People are not going to stand for Voter Fraud (and the Leftist destruction of businesses and families) via their “advertising” on certain local media outlets and they should seek alternative advertising.

STEP 3 - Know the difference between RINO Media and Leftist Media and first focus on the RINO media and their LOCAL advertisers. Second, there is an important difference between Local Businesses and Local Advertisers.

STEP 4 - Make Very Short Easy To-Do LOCAL lists (Like one Advertiser, then add little by little.)...not LONG lists like those who scream “*Stop supporting the Global Cabal and WEF*”. Furthermore, it’s not easy to switch banks. But it is easy to open a single small “test” bank account and step-by-step migrate.

KISS - Keep It (the Advertiser Boycott) Simple Stupid.
