

WHAT HAPPENED AFTER THE EMANCIPATION PROCLAMATION?

(A) - Slaves went back to work as sharecroppers for their Evil White Master who beat them, tortured them, raped their women, and separated their families.

(B) - Slaves, since given freedom, sailed back to Africa because their Evil White Master beat them, tortured them, raped their women, and separated their families.

(C) - Slaves went back to work as sharecroppers for their White Plantation Masters as they saved them from starvation in Africa and treated Slaves as racehorses as they knew there were no Walmarts, 911, Electricity, Refrigerators, Tupperware, Ziplock bags, etc. Both master and slave worked as a team and prayed for rain as Food came only from that plantation and not from Walmarts, Sam's Club, or Food Stamps. And if a slave refused to work, both Slaves and Free would starve. Sort of like a captain and sailors on a ship at sea. Everyone must work together to avoid drowning, or in this case, starving to death.
