

FOR 'THE SILENT' MAJORITY WHO WANT TO GET IN THE GAME

... SILENTLY

QUESTION: How do you get past Leftists like ANTIFA and BLM who vandalize your car if you have a conservative bumper sticker? e.g., MAGA, Trump, etc.

ANSWER: Use a WW2 Leaflet Air-Drop. Well, it's not feasible on Domestic land, but you can use short Conservative Memes printed on Business Cards (which makes it easy for you to carry in your wallet or purse) and discretely leave them on tables and counters in restaurants and stores you patronize in Blue Democrat Cities.

STEP OF FAITH: If you get brave enough, you can hand a business card, face-to-face, as you (or they) are leaving the store. Get a friend to go with you as, *Courage is Contagious*.

NOTE: But are Conservative Memes on Business Cards worth the time and money? Well, Flipping a Blue Voter to a Red Voter counts as a two (2) vote change. Plus, they could easily pass that same business card to their inner circle.
