

INCARCERATION

IN-NAME-ONLY

BACKGROUND

It's been stated that Louisiana has one of the highest incarceration rates in the world.

QUESTION

How do you know back in the 90's and later, the Incarceration Rate was IN-NAME-ONLY?

ANSWER

Criminals in Louisiana Blue Cities like Orleans Parish's were arrested multiple times and many criminals dozens of times. That is, many criminals had "*a-rap-sheet-a-mile-long*". That plus, low bail, and 10 of thousands of bench warrants. Hence, that's how you know the incarceration rate was in name only.
