

MORE GO-CUPS

MORE POOR BARTENDERS

*GO CUPS, JUST ANOTHER VERSION OF SPRING BREAK*

**1** Go-Cups (Open Container) are like a Coastal Spring Break where you buy cheap beer at the corner grocery store or gas station and have a free party on the beach. Hence, the NOLA "millions" of visitors per year on Bourbon St and the French Quarter (1) don't pay a cover, (2) don't tip, and (3) don't pay top dollars for drinks.

**2** Because the "party" is always outside on Bourbon Street, it fuels crime, scaring away the companies with good jobs, who, by the way, pay a cover, tip well, and pay market rate for drinks.

**3** Then add in the fact that 50% of Orleans Parish lives around the poverty line, and the other half can't find a good-paying job due to #2. So you know the Locals, across the board) aren't going to be paying a cover, tipping well, or paying market rate for drinks.

**4** Essentially, Go-Cups are a Triple Whammy against Bartenders (and wait staff) being paid well.
