

ARMED TEACHERS?

#1 - Many of Europe's Small Countries have **Conscription...(aka Mandatory Military Services) for everyone, both men and women, over a certain age, e.g., 18 and over.**

#2 - Likewise, that means **everyone in America can also learn to shoot a gun, and this includes every **Teacher in America**.**

#3 - If **Teachers in Europe (via **Conscription**) can and do serve in their military, then every **Teacher in America** can learn how to shoot a gun and defend themselves and their students.**
