WHAT THEY DON'T TELL YOU

Notice those who know of someone personally who died of Covid19, don't mention when they died (e.g., 1.5 years ago). Or if they had a pre-existing Co-Morbid condition like Obesity or Cancer or were in a Nursing Home. *Nor do these doctors in the news mention a *like* 99.998141% recovery rate if you are not in a nursing home and the aforementioned points.* Yet, scream 24/7 the sky is falling. That's Misleading, a Lie, and a Hoax.
