

# HOLLYWOOD STAGED RIOT?

## JAN 6TH BEST ACTOR AWARD: CAPITOL OFFICER EUGENE GOODMAN?

#1 Notice how the Camera Person for Capitol Officer Eugene Goodman already had their Camera ON (and filming) before seeing any action when walking down the steps. Why was this camera person up so high in the building to begin with?

#2 The video for Officer Goodman looks staged as there sure were a lot of cameras at picture-perfect Hollywood angles and framing. Videos of both (1) Behind the Capitol Police Officer and (2) at the front line of the rioters, to get video directly in front of the police officer. That is, as if the rioters wanted a video taken up close, and also, front and center.

#3 The End of the video shows lots of cops and lots of photographers (and with expensive Pro Lenses and Bags) ready to take photos? Notice how the ending video camera *was already rolling, and in perfect background position*, before the cops arrived. It sure looks like a pre-planned choreographed Hollywood Movie.
