

WHY ARE BLUE DEMOCRAT CITIES

with decades of corruption and incompetence

ALWAYS THE LAST TO REPORT?

QUESTION: With all these fancy high tech computer voting systems, and an experienced voter demographic who knows their way around a voting system, why are Blue Democrat Cities always the last to report their voting results?

ANSWER: A Vote Machine's Ballot Adjudication System? Isn't that where poll workers *trained* in "adjudication" of questionable votes can result in Lost Votes, Deleted Votes, and even Change Votes?

More Time To Report  More Ballot Adjudication  More Vote Manipulation
