

# How many **TRUMP** rallies since 2015?

There have been many Trump rallies since 2015 attended by the tens of thousands of Trump supporters all over America, and not a single one of those rallies have had rioting or violence.

There is a “he said, she said” about who these Capitol rioters are, but we do know that ANTIFA, BLM, and the Democrats since 2015 have caused violence and riots in Blue Democrat Cities ever since; of which were green-lighted by Liberal Democrats leaders of same those Blue Democrat Cities who told their own police to stand down. Those are the facts.

NOTE: Did Big Tech (e.g. Google, Twitter, Facebook, etc) ban any Liberal or Democrat Leaders for inciting and allowing ANTIFA and BLM violence in Blue Democrat Cities for all of 2020 and earlier?
