

FREE WILL

What does “free” really mean?

BACKGROUND:

some say that they don't really have **Free Will** since God is in control over everything. And thus should not be subjected to **Hell** as they didn't have **free will** to make choices in the first place.

QUESTIONS:

Likewise, what is the definition of **Free Will**? Should **Free Will** be *free* from the all-seeing ability and all-powerfulness of God? Or Should **Free Will** be *free* from the Laws of Physics?

Or maybe **Free Will** means having the Universe all to yourself?

SUMMARY:

Freedom to make choices is not the same as **freedom** from **consequences**.

To have **freedom**, you have to have choices, and choices mean **consequences**.
