

# GOOD

## BY DEFAULT

### QUESTION

In order for **“separation”** of Church and state to exist, BOTH the Church and state must exist to have **“separation,”** correct? So if the (1) Church exists, so must (2) Religion exist? And hence, so must (3) God exist. So the U.S. Constitution has, **by default,** declared that God must exist via its **“separation”** doctrine, correct?
