

SLAVERY, THE BIBLE, AND THE ATHEIST

1- Did you know that Walmarts, Food Stamps, Electricity, and Tupperware did not exist during Biblical times? Hence, if a Slave (as stated in the Bible) didn't work back then, not only would that slave starve, but also many slaves would go hungry. Both Slave and Free lived harvest to harvest, praying for rain and a good harvest.

2- Hence, a plantation was like a ship at sea. Everyone (both slave and free) must work together to produce food and shelter as life was very hard back then, just like a ship at sea is all under one captain to sail safely.

3- Hence, Atheists who say the Bible was wrong about Slavery clearly have no idea what life was like back then. Thus, the Bible is right in not saying Slavery is NOT Evil as it saved many Slaves from starving to death.
